- **No added cost to your organization.** Included as a value-added benefit of Sage Business Care.
- **Safe and secure.** Sage Source is a secure website requiring user-created credentials to logon.
- **Easy to start using.** All you need is an Internet connection and a logon. No training required!
- **Mobile friendly.** Allows employees to stay connected wherever the workday takes them.
- **Customizable.** A personalized view allows each user to create his or her own unique environment.

As your trusted business advisor, Sage is always working to make your business life easier. We are committed to developing applications that reduce workload, increase efficiency, and provide businesses with the tools they need to be competitive in any industry. And our commitment now extends beyond traditional business solutions to innovative new solutions that help achieve optimum work life balance, enabling your workforce to excel personally as well as professionally. With that philosophy in mind, we developed Sage Source.

Sage Source allows you to streamline business processes and offer employees access to valuable online business tools and benefits at no additional cost as part of Sage Business Care. Requiring no implementation or IT administration, the intelligent, customizable online interface easily leverages existing Sage HRMS on-premise data and combines it with complimentary services from third-party solution providers.

BUSINESS CHALLENGES ADDRESSED WITH SAGE SOURCE

Attracting the Right Talent

Offer benefits to your workforce that previously only larger enterprises had the means to offer.

Communication

Improve communication using the company announcement gadget, which enables you to notify employees immediately of critical information on their work PC, smart phone, or personal tablet.

Access

Provide your employees secure electronic access to their payroll information without printing paystubs.

Employee Engagement

Motivate your employees and increase your Return on Employee Investment.

Technology

Ensure employees have the on-the-go, anytime access to the tools and services they need to do the job.

Work Life Balance

Eliminate the need for employees to disconnect from their work life to connect to their personal life by putting work and life interests in one workspace and fostering an environment that encourages loyalty.

What Is a Gadget?

- Think of a gadget as a mini-webpage that displays only the most relevant information for a specific service.
- Depending on the service tied to the gadget, the gadget will have different functionality.
- Gadgets display both professional and personal tools so a user has access to the tools they use every day in a centralized workspace.
- The Sage Source gadget catalog provides access to an ever-growing library of Sage-vetted gadgets that will help a user stay organized.
