

SAGE PAYROLL PAYCARD

Many employers recognize the growing benefits that come from offering their employees payroll paycards, including convenience, security, cost savings and a higher employee retention rate. In fact, the payroll paycard can be offered as an alternative to paper paychecks, translating into cost savings for your business. The primary advantage of paycards is the immediate elimination of costs associated with producing paper paychecks, which can equate to more than \$1 per employee, per pay period.

The Sage Payroll PayCard works the same way as a direct deposit transaction, and requires no additional systems, software or hardware. Your company can incorporate the Sage Payroll PayCard program into your existing process regardless of the payroll software or service you currently use. If your company offers direct deposit, you can also offer the Sage Payroll PayCard. It's that easy!

With the Sage Payroll PayCard, you can offer your employees 24/7 access to funds, safety and security, on-time pay no matter what (e.g., employees on vacation or sick leave, remote employees, etc.), elimination of time-consuming trips to the bank, and more. The Sage Payroll PayCard functions much like a debit card, and can be used anywhere debit cards are accepted, including ATMs, retail establishments and for online purchases. In addition, the payroll paycard can be just as popular with the "unbanked" employee as it is for those who have a banking relationship, offering both groups more flexibility and convenience in managing their money.

With the Sage Payroll PayCard, you can save money while offering your employees additional benefits and convenience ... truly a win-win situation!

Enhanced employee satisfaction

- "Unbanked" employees save money by eliminating expensive check cashing fees, which can range from 1-6% of their paycheck, as well as costs associated with the purchase of money orders, which can range from \$.90 to \$5.00 each.
- Employees can access their paycheck and receive account balances 24/7, either online or by calling a toll-free number.
- Easy to carry and use, the Sage Payroll PayCard is accepted nearly everywhere debit cards are accepted.
- Families can receive multiple cards for use.
- "Banked" employees have more flexibility with money management by combining the Sage Payroll PayCard with direct deposit.

Sage Payroll PayCard offers the convenience and security of a debit card, while offering a low cost alternative to paper checks. ►
